When You Build a Kynd Kit - The Cycle of Impact

Tips for Building Your Kit

Helpful Tip for Building Your Kynd Kit

- Avoid politics and religion entirely.
- Use appropriate humor.
- Can't think of what to write, draw a picture!
- Use words of affirmation!
- Place a piece of paper in any canvas bag before drawing on the outside. This way, the marker will not bleed through the other side of the bag.
- Please keep your designs gender-neutral, inclusive, and age-appropriate.

Digital Literacy [Classic]

Before You Build

About the Recipient

This kit, built in partnership with AT&T, is designed to help bridge the technology gap by giving someone the tools and confidence to navigate the digital world. Before you start building, take a moment to think about how the skill you use every day, online searching for information, spotting scams, creating documents, or connecting with others, can open doors for someone who may be new to technology. As you assemble this kit, imagine the

recipient learning, exploring, and feeling empowered to use digital tools to connect, learn, and thrive. Your work today is helping them take that first step toward greater opportunity and independence.

STEP 4 OF 11

Decorate the Bag

Decorate the kraft bag(s). This is what the final kit is distributed in, so try to make this fun and colorful for the recipient to open.

Please note: we are currently transitioning from plastic ziplock bags to kraft bags. Some kits may still include the plastic bag for you to decorate while we complete this transition.
